

IBRAHIM MOHAMED GHOUSE

United Arab Emirates, Abu Dhabi • +971 50 780 9363 • ibrahim.ghousehb@gmail.com

SUMMARY

Recent graduate blending technical expertise with business insight, backed by pre-sales experience at Alpha Data and hands-on delivery of a real-time computer vision system. Eager to drive client-focused solutions in dynamic sales environments.

WORK EXPERIENCE

Pre-Sales Intern, Alpha Data

Sept 2024- Jan 2025

- Conducted in-depth research on vendor ecosystems, market trends, and emerging enterprise technologies
- Developed strong insight into market needs and aligned them with relevant digital transformation strategies.
- Proposed pre-sales initiatives by analyzing competitors and contributing to solution positioning.

Anti Avian Creature Voidance System, Personal Project

Sept 2024 - Feb 2025

- Designed and deployed a real-time computer vision system using Raspberry Pi and OpenCV for bird detection.
- Integrated radar, ultrasonic sensors, and a PyQt dashboard for data visualization and system control.
- Developed a full-stack embedded solution combining hardware interfacing, image processing, and automation.

EDUCATION

Masters in Data Science and AI

Jan 2026 - Current

University of Liverpool

- Relevant coursework in Software Engineering, AI, Data Science

Bachelor of Science in Computer Science and AI

Sep 2022 - July 2025

University of Birmingham Dubai

- Honours: 2:2
- Relevant coursework in Artificial Intelligence, Security

Abu Dhabi International School

Sept 2010 - May 2022

International Baccalaureate

- Score: 34

ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Structural Analysis, System Architecture Design, Cloud Platforms
- **Languages:** English (Fluent)
- **Certifications:** AZ900 Azure Fundamentals, DP900 Data Fundamentals, AI900 Artificial Intelligence Fundamentals
